

Table of contents

1. Introduction	1
1.1 The fascination of panoramic art	1
1.2 Panoramas on the Internet	3
1.3 Panoramic forms – Projection	5
1.3.1 Cylindrical projection	5
1.3.2 Spherical projection	6
1.3.3 Cubic projection	7
2. Fundamentals	9
2.1 Production of interactive panoramas	9
2.1.1 Taking pictures with a panoramic camera	9
2.1.2 Taking individual pictures	9
2.1.3 Correcting image distortion	10
2.1.4 Stitching individual pictures	10
2.1.5 Retouching the panoramic picture	10
2.1.6 Publication of the panorama	10
2.2 Term definitions	11
2.2.1 Lenses	11
2.2.1.1 Rectilinear lenses	11
2.2.1.2 Fisheye lenses	12
2.2.2 Focal length and field of view	13
2.2.3 Image distortion of lenses	14
2.2.3.1 Linear distortion	15
2.2.3.2 Perspective distortion	15
2.2.3.3 Vignetting	16
2.2.3.4 Chromatic aberration	16
2.2.4 Determining the required number of pictures	17
2.2.5 Determining the nodal point	20
3. Photo technology and techniques	25
3.1 Differences between analog and digital	25
3.1.1 Analog technology	26
3.1.2 Digital technology	26

3.2	Analog photography	27
3.2.1	Film material	27
3.2.2	Scanners	28
3.2.2.1	How scanners work	28
3.2.2.2	Scanning resolution	28
3.2.2.3	Types of scanners	29
3.2.2.4	Scanner software	31
3.2.3	Picture CDs	31
3.3	Digital photography	32
3.4	Tips for taking panoramic pictures	33
3.4.1	General tips	33
3.4.2	Tips for taking pictures with digital cameras	35
3.4.3	Tips for taking pictures with analog cameras	35
4.	Special correction methods	37
4.1	Correcting image distortion	37
4.1.1	Correcting optical distortion	37
4.1.2	Correcting perspective distortion	40
4.1.3	Correcting vignetting	41
4.1.4	Correcting chromatic aberration	43
4.2	High dynamic range	46
5.	Equipment	53
5.1	Cameras and lenses	53
5.1.1	Compact cameras	53
5.1.2	Single lens reflex cameras	54
5.1.3	Video cameras	54
5.1.4	Panoramic cameras	55
5.1.5	One shot solutions with a parabolic mirror	56
5.2	Panoramic tripod heads	57
5.3	Turntables for object movies	57
6.	Cylindrical panoramas	59
6.1	Introduction	59
6.2	Photo technology and techniques	59
6.2.1	Panoramic cameras	59
6.2.1.1	Seitz Roundshot 28/228	60
6.2.2	One shot solutions with a parabolic mirror	61
6.2.3	Single-row technique	63
6.2.4	Multi-row technique	64
6.2.5	Tripod heads	65
6.3	Stitching software	66
6.3.1	VR Worx – VR PanoWorx (panoramic picture)	67
6.3.2	VR Worx – VR PanoWorx (single-row technique)	71
6.3.3	PanoTools – PTGui (single-row technique)	76
6.3.4	REALVIZ stitcher (multi-row technique)	86

7.	Spherical and cubic panoramas	95
7.1	Introduction	95
7.2	Photo technology and techniques	95
7.2.1	Panoramic cameras	95
7.2.1.1	Seitz Roundshot Digital II	97
7.2.1.2	Spheron SpheroCam HDR	100
7.2.2	Single-row technique	103
7.2.2.1	Using two fisheye pictures	103
7.2.2.2	Using eight fisheye pictures	104
7.2.3	Multi-row technique	105
7.2.4	Tripod heads	106
7.2.5	Additional tips	108
7.3	Stitching software	108
7.3.1	REALVIZ stitcher (panoramic picture)	108
7.3.2	REALVIZ stitcher (multi-row technique)	114
7.3.3	iPIX Interactive Studio (two fisheye pictures)	123
7.3.4	PanoTools – PTGui (eight fisheye pictures)	127
8.	Object movies	137
8.1	Introduction	137
8.2	Photo technology and techniques	137
8.2.1	Single-row technique	137
8.2.2	Multi-row technique	138
8.2.3	Turntables	140
8.2.4	Tips for taking pictures of objects	142
8.2.5	Alternatives	144
8.2.6	Specials	145
8.3	Software for creating object movies	145
8.3.1	PanoTools – PTStripe	146
8.3.2	QTVR Edit Object	147
8.3.3	VR Worx – VR ObjectWorx	151
9.	Virtual tours	159
9.1	Introduction	159
9.2	Photo technology and techniques	159
9.2.1	Tips for picture taking	159
9.3	Software for virtual tours	160
9.3.1	REALVIZ Stitcher	160
9.3.2	VR Worx – VR SceneWorx	165
9.3.3	HotMedia	171
9.3.4	iLinker	176
9.3.5	PTViewer	178

10. Publication	179
10.1 QuickTime VR.....	179
10.1.1 Integration in HTML code	181
10.1.2 Specials	182
10.2 PTViewer	183
10.2.1 Integration in HTML code	184
10.2.1.1 PTViewer for panoramas	184
10.2.1.2 PTViewer for virtual tours	186
10.2.1.3 PTViewer for objects	188
10.2.2 Specials	189
10.3 iPIX	190
10.3.1 Integration in HTML code	190
10.3.2 Specials	192
10.4 HotMedia	192
10.4.1 Integration in HTML code	193
10.4.2 Specials	193
10.5 Cortona VRML viewer	195
10.5.1 Integration in HTML code	195
10.5.2 Specials	196
10.6 Panoramas on paper	197
10.6.1 Making printouts with an ink-jet printer	197
10.6.2 Professional developing	197
11. Comparing photo technology and techniques	199
12. Comparing software applications	203
13. Comparing viewers	209
14. Application possibilities	215
15. Outlook	217
A. Bibliography	221
A.1 Reference literature	221
A.2 Internet sources	222
A.3 Image sources	224
B. List of manufacturers	227
B.1 Software	227
B.1.1 Software for cylindrical panoramas	227
B.1.2 Software for spherical panoramas	228
B.1.3 Software for object movies	229
B.1.4 Software for virtual tours	229
B.1.5 Software for converting panorama formats	230

B.1.6	HDR (High Dynamic Range) software	231
B.1.7	Viewer software	231
B.1.8	3-D software	232
B.1.9	Software for image editing	232
B.2	Equipment	233
B.2.1	Camera manufacturers	233
B.2.2	Lens manufacturers	234
B.2.3	Manufacturers of parabolic mirrors	234
B.2.4	Manufacturers of panoramic cameras	235
B.2.5	Manufacturers of panoramic tripod heads	235
B.2.6	Manufacturers of turntables for object movies	235
	CD-ROM with sample files	237
	Glossary	239
	Index	244
